

PLANTILLA: REPORTE EJECUTIVO EN POWERPOINT

Guía Markdown para Presentación a Board

Versión: 2.0

Fecha: Enero 2026

Clasificación: Profesional | Documento de Presentación

Público: Board of Directors, C-Suite, Investors

Duración: 20-30 minutos (slides) + 10 minutos Q&A

Software Recomendado: PowerPoint, Google Slides, Keynote

I. ESTRUCTURA GENERAL DEL REPORTE

Total Slides: 12-15 slides

Tiempo por slide: 1.5-2 minutos

Formato: 16:9 widescreen

Estilo: Profesional corporativo; usar colores marca organizacional

II. SLIDE-BY-SLIDE CONTENT

SLIDE 1: PORTADA

TÍTULO PRINCIPAL (60 puntos)

"Evaluación de Madurez en Gobernanza IA
y Ciberseguridad | España 2026"

Subtítulo (32 puntos)

"Reporte Ejecutivo: Indicadores NIST AI RMF,
Análisis de Gaps, Roadmap de Implementación"

Pie de página (16 puntos)

[Fecha] | [Clasificación: CONFIDENCIAL] | [Organización]

Visual: Logo organizacional + ilustración seguridad/IA (opcional)

SLIDE 2: EXECUTIVE SUMMARY (KEY FINDINGS)

TÍTULO: "En 30 Segundos: Los Hechos Clave"

CONTENIDO (4 bullet points, tamaño 28pt):

- IGM Actual: 2.48/5.0 (INCIPIENTE → DEFINIDO)
 - └ Interpretación: Procesos iniciales; gaps críticos en MEASURE
- Brecha a Target: -1.02 puntos (del 3.5 requerido)
 - └ Equivale a 2-3 años de esfuerzo continuo
- Riesgo Financiero (ALE): €1.8M/año si no se actúa
 - └ Equivale a ~1-2 brechas de seguridad sin mitigación
- Oportunidad ROI: €1.35M/año savings + 178% ROI (Year 1)
 - └ Payback period: 4.3 meses | Aprobación: €485K inversión

VISUAL: 4 cajas de color (rojo/amarillo/verde) con números grandes

SLIDE 3: CONTEXTO Y PROPÓSITO

TÍTULO: "¿Por Qué Esta Evaluación Ahora?"

CONTENIDO (3 columnas, lado a lado):

COLUMNA 1: REGULACIÓN

- └ EU AI Act: Enforcement 2 Feb 2026 (Caps I-II)
- └ Art. 28-99: Compliance obligatorio agosto 2026
- └ AESIA: Auditorías + sanciones €35M+ posibles
- └ NIS2: 12 sectores críticos bajo vigilancia

COLUMNA 2: THREATS

- └ Ataques IA ↑156% YoY (cadena suministro)
- └ Bias/fairness litigation ↑ (employment cases)
- └ Supply chain compromise (3000+ modelos malignos)
- └ Ransomware targeting IA systems

COLUMNA 3: OPORTUNIDAD

- └ Liderazgo sectorial (ser top-tier en madurez)
- └ Confianza stakeholder (inversores, clientes)
- └ Prevención incidents (€2M+ por breach)
- └ Attracting talent (security-conscious employees)

VISUAL: Timeline regulatory milestones (visual Gantt simplificado)

SLIDE 4: METODOLOGÍA

TÍTULO: "Cómo Medimos: GQM + PRAGMATIC Framework"

CONTENIDO (Visualización en 3 niveles, pyramidal):

NIVEL 1 (Arriba): GOAL

- └ "Gobernar IA de forma justa, segura, auditable"
- └ Objetivo nacional + estrategia organizacional

NIVEL 2 (Medio): QUESTIONS

- └ "¿Políticas documentadas?"
- └ "¿Sistemas IA auditados?"
- └ "¿Fairness monitoreada?"
- └ "¿Incidentes remediados rápido?"

NIVEL 3 (Abajo): METRICS

- └ "Scoring 1-5 por indicador"
- └ "Validado contra 9 criterios PRAGMATIC"
- └ "Trazable a requisitos normativos"

EXPLICACIÓN (16pt):

"Cada indicador conecta estrategia (Goal) a acción (Métrica).
Criterios PRAGMATIC (Predictivo, Relevante, Accionable, etc.)
aseguran que métricas sean viables, no aspiracionales."

VISUAL: Pyramid diagram con 3 niveles coloreados

SLIDE 5: SCORECARD GLOBAL - IGM

TÍTULO: "Puntuación Global: IGM (Índice de Gobernanza Madurez)"

CONTENIDO PRINCIPAL:

GAUGE/BULLET CHART (grande, 50% slide):

1.0 ----[●]----- 3.5 ----- 4.5 --- 5.0
Ad-hoc ACTUAL 2.48 TARGET Optimizado
(49% progress)

INTERPRETACIÓN (14pt, debajo):

"Estamos a MITAD DEL CAMINO entre Ad-hoc y Definido.

Target es 3.5 (Definido+) by Dec 2026 = 12-18 meses esfuerzo."

DESGLOSE IZQUIERDA (3 columnas, 20pt font):

COLUMNA 1: Estado Actual

- GOVERN: 2.5/5.0
- MAP: 3.0/5.0
- MEASURE: 2.0/5.0 ⚠ CRÍTICA
- MANAGE: 2.5/5.0
- PROMEDIO: 2.48/5.0

COLUMNA 2: Target Dec 2026

- GOVERN: 3.5/5.0
- MAP: 3.5/5.0
- MEASURE: 3.5/5.0 ← BIG LIFT
- MANAGE: 3.0/5.0
- PROMEDIO: 3.5/5.0

COLUMNA 3: Gap

- GOVERN: -1.0
- MAP: -0.5
- MEASURE: -1.5 ← PRIORIDAD 1
- MANAGE: -0.5
- TOTAL: -1.02

VISUAL: 4 horizontal bar charts (uno per módulo)

SLIDE 6: BREAKOUT BY MODULE

TÍTULO: "Desglose por Función NIST"

CONTENIDO (4 panels lado a lado):

PANEL 1: GOVERN (Governance & Risk)

- Current: 2.5 (INCIPIENTE)
- Fortaleza: Políticas formales existen
- GAP: RACI no formalizado; risk tolerance vaga
- Action: Documentar roles; Board approval (2 semanas)
- Impact: ★★★☆☆ (Enabler, no blocker)

PANEL 2: MAP (Mapping Impact)

- Current: 3.0 (DEFINIDO)
- Fortaleza: Context bien documentado
- GAP: Risk matrix sin calibración externa
- Action: Validación experto riesgo (4 semanas)
- Impact: ★★★☆☆ (Moderate)

PANEL 3: MEASURE (Measurement & Metrics) ← FOCUS

- Current: 2.0 (INCIPIENTE - CRÍTICA)
- Fortaleza: SIEM básico existe
- GAP: Sin fairness audits; MTTD no measured; explainability gap
- Action: Implementar fairness platform + SIEM ML (12 semanas)
- Impact: ★★★★★ (Transformation)

PANEL 4: MANAGE (Management & Response)

- Current: 2.5 (INCIPIENTE)
- Fortaleza: Incident playbooks documentados
- GAP: MTTR inconsistente; validación externa falta
- Action: Automatizar incident response; external audit (8 weeks)
- Impact: ★★★☆☆ (High)

VISUAL: 4 colored boxes (rojo/naranja/amarillo/verde per module)

SLIDE 7: TOP 5 GAPS PRIORIZADOS

TÍTULO: "Las 5 Oportunidades Más Críticas (Quick Wins + Strategic)"

CONTENIDO (Table format, 20pt font):

#	Gap	Current State	Target State	Esfuerzo	Timeline	Owner
1	Fairness audit	0% models	100% audited	<5% gap	Medio	4 sem CDO
2	SIEM ML anomaly	Rule-based	ML detection	<15min MTTD	Alto	12 sem CISO
3	RACI formal	Verbal	Documented + trained	Bajo	2 sem	CISO
4	Risk tolerance	Ad-hoc	Quantified scales	Bajo	2 sem	CRO
5	Pentesting IA-specific	Traditional	Model extraction + poisoning	Medio	6 sem	CISO

VISUAL: Priority matrix scatter plot

Y-axis: Criticidad (High/Medium/Low)

X-axis: Esfuerzo (Low/Medium/High)

Cuadrante TOP-LEFT (Quick Wins - Prioridad 1):

- RACI formal
- Risk tolerance
- IA-specific pentesting

Cuadrante TOP-RIGHT (Strategic - Prioridad 2):

- Fairness audit platform
- SIEM ML enhancement

SLIDE 8: RIESGO SI NO SE ACTÚA

TÍTULO: "¿Qué Pasa Si No Hacemos Nada? (Risk Scenario)"

CONTENIDO (4 cuadros de riesgo, side-by-side):

CUADRO 1: REGULATORY RISK

- Riesgo: AESIA audits (agosto 2026) → hallazgos críticos
- Probabilidad: 85% (si no mejoramos)
- Impacto: €35M+ sanciones (Art. 99)
- Trigger: Gaps no remediados before Aug 2026

CUADRO 2: OPERATIONAL RISK

- Riesgo: Bias incident → lawsuit → reputational damage
- Probabilidad: 40% (sin fairness audits)
- Impacto: €5-10M (legal + mitigation + lost revenue)
- Trigger: Hiring/credit model discriminates, goes to court

CUADRO 3: SECURITY RISK

- Riesgo: Data breach (4h MTTD → detección lenta)
- Probabilidad: 30% annual
- Impacto: €2M+ (forensics + notification + regulatory)
- Trigger: Breach happens; unknown 6-8h; customer data exposed

CUADRO 4: COMPETITIVE RISK

- Riesgo: Talent loss; partners avoid engagement
- Probabilidad: 70% (security-conscious workforce demands governance)
- Impacto: 10-15% attrition; deal velocity ↓
- Trigger: Word spreads: "They don't take security seriously"

SÍNTESIS:

"Expected Annual Loss Exposure: €1.8M
(assuming 30% annual incident probability)"

VISUAL: 4 red alert boxes con iconos (⚠️) + línea timeline

SLIDE 9: OPORTUNIDAD ROI

TÍTULO: "La Oportunidad: €1.35M Savings + 178% ROI Year 1"

CONTENIDO (Waterfall chart + números grandes):

WATERFALL VISUALIZATION:

Starting State (€1.8M annual risk):

- └ Fairness audits implemented → -€400K
- └ SIEM ML + MTTD improvement → -€720K
- └ Enhanced training → -€230K
- └ Ending State (€450K residual)

Equivalence: "Like avoiding 1 major breach every 2 years"

FINANCIAL SUMMARY (Big font, 40pt):

Year 1:

- └ Investment: €485K
- └ Savings: €1.35M
- └ Net Benefit: €865K
- └ ROI: 178%
- └ Payback Period: 4.3 months ← KEY MESSAGE

3-Year Cumulative:

- └ Investment: €485K (Y1) + €150K/año maintenance
- └ Savings: €1.35M × 3 = €4.05M
- └ Net Benefit: €3.6M
- └ 3-Yr ROI: 643%

VISUAL: Waterfall chart + timeline (0-36 months with payback marked)

SLIDE 10: IMPLEMENTATION ROADMAP

TÍTULO: "Roadmap Implementación: Q1 2026 - Q4 2026"

CONTENIDO (Gantt-style timeline):

Q1 2026 (13 semanas) - FOUNDATION

- Week 2-4: RACI + Risk Tolerance + Policies (GOVERN)
- Week 4-8: Fairness audit platform vendor selection
- Week 6-13: SIEM ML evaluation + POC
- Milestone: BASELINE AUDIT (end of Q1)

Q2 2026 (13 semanas) - CRITICAL EXECUTION

- Week 14-18: Fairness audits Phase 1 (hiring + credit models)
- Week 18-26: SIEM ML deployment + team training
- Week 20-26: IA-specific pentesting Phase 1
- Week 26: EU AI Act Art. 28-99 pre-assessment
- Milestone: HIGH-RISK SYSTEMS REGISTERED (deadline Aug 2)

Q3 2026 (13 semanas) - SCALING

- Week 27-31: Fairness audits Phase 2 (remaining models)
- Week 32-39: Enhanced employee training deployment
- Week 35-39: EU AI Act Art. 50 implementation (transparency)
- Week 39: Re-assessment survey
- Milestone: €0 AESIA FINDINGS (pre-audit readiness)

Q4 2026 (13 semanas) - OPTIMIZATION

- Week 40-44: SIEM fine-tuning (reduce false positives)
- Week 45-52: Continuous monitoring + refinement
- Week 48: Board review: Updated maturity scorecard
- Week 52: Plan 2027 roadmap (target 3.5→4.0)
- Milestone: TARGET MADUREZ 3.5 ACHIEVED

VISUAL: Gantt chart (timeline horizontal, 4 quarters, color-coded phases)

SLIDE 11: INVESTMENT SUMMARY

TÍTULO: "Inversión Requerida & Desglose"

CONTENIDO (Budget allocation table):

PRIORITY 1 (First 12 weeks) - €365K:

- └ Fairness audit platform: €80K (tools + setup)
- └ SIEM ML implementation: €150K (platform upgrade)
- └ Governance formalization (RACI + policies): €35K (consulting)
- └ IA-specific pentesting: €50K (external firm)
- └ Project management & coordination: €50K
- └ SUBTOTAL: €365K

PRIORITY 2 (Weeks 13-26) - €120K:

- └ Enhanced training program: €50K (content + platform)
- └ Accuracy monitoring platform: €40K
- └ Stakeholder assessment facilitation: €30K
- └ SUBTOTAL: €120K

ONGOING (Maintenance, Year 1+) - €150K/año:

- └ SIEM ML monitoring & tuning: €60K/año
- └ Security training updates: €40K/año
- └ Fairness audit cycle: €30K/año
- └ External validation & audits: €20K/año
- └ SUBTOTAL: €150K/año

TOTAL INVESTMENT 2026:

- └ Capex (hardware/licenses): €180K
- └ Opex (staff, services, training): €305K
- └ TOTAL YEAR 1: €485K

ROI CHECK: €1.35M savings >> €485K investment (178% ROI) 

VISUAL: Pie chart (by category) + bar chart (monthly cash burn)

SLIDE 12: RISKS & MITIGATION

TÍTULO: "Riesgos y Mitigación"

CONTENIDO (2 columns - Risk / Mitigation):

RIESGO 1: SCOPE CREEP (10% probability)

- └ Risk: Roadmap expands; delays; cost overruns
- └ Mitigation: Fixed scope, monthly steering committee, change control

RIESGO 2: RESOURCE SHORTAGE (30% probability)

- └ Risk: IT staff overloaded; project slips
- └ Mitigation: Hire 1-2 contractors; external partner support; backfill

RIESGO 3: TECHNOLOGY DELAYS (20% probability)

- └ Risk: SIEM ML vendor delays; fairness platform not ready
- └ Mitigation: Parallel contingency tools; early procurement; vendor SLAs

RIESGO 4: EXECUTIVE COMMITMENT (15% probability)

- └ Risk: Priorities shift; investment deprioritized mid-stream
- └ Mitigation: Board sign-off + CFO co-sponsorship; monthly reviews

RIESGO 5: ADOPTION RESISTANCE (25% probability)

- └ Risk: Teams don't follow new processes (RACI, fairness audits)
- └ Mitigation: Training + incentives; leadership modeling; audit compliance

OVERALL PROJECT RISK: MEDIUM (Mitigable)

- └ Confidence Level: 80% (can achieve targets with discipline)

VISUAL: Risk matrix (Probability vs. Impact) showing 5 risks positioned

SLIDE 13: NEXT STEPS & GOVERNANCE

TÍTULO: "Acciones Inmediatas & Governance Estructura"

CONTENIDO:

THIS WEEK (Actions):

- └ □ Board approval of roadmap + budget (€485K)
- └ □ Designate Executive Sponsors (CFO + CISO co-own)
- └ □ Establish Steering Committee (biweekly meetings)
- └ □ Kick-off vendor selection (fairness platform, SIEM ML)

GOVERNANCE STRUCTURE:

- └ Executive Sponsor: CFO + CISO (decision authority)
- └ Steering Committee (Monthly):
 - └ CRO, CISO, CDO, Chief Architect, Program Manager
 - └ Agenda: Progress tracking, obstacle removal, Board prep
- └ Working Teams (Weekly):
 - └ GOVERN Team (policies, RACI)
 - └ MEASURE Team (fairness audits, SIEM, accuracy)
 - └ MANAGE Team (incident response, validation)
 - └ Infrastructure Team (platform deployments)
- └ External Oversight:
 - └ Compliance officer (NIS2, GDPR, EU AI Act alignment)
 - └ External auditor (quarterly checkpoints)
 - └ Vendor management (SLA tracking)

REPORTING CADENCE:

- └ Weekly: Working team sync (30 min)
- └ Monthly: Steering committee (1 hour)
- └ Quarterly: Board update (15 min)
- └ Trigger: Escalations if risk status RED

SUCCESS METRICS (Track):

- └ IGM: Target 3.5 by Dec 2026
- └ ROI: €1.35M savings realized
- └ Incidents: ↓30% breach incidents YoY
- └ Compliance: 0 AESIA findings in first audit

VISUAL: Org chart + timeline of decisions + checkpoint dates

SLIDE 14: CLOSING / CALL TO ACTION

TÍTULO: "Conclusión: Una Oportunidad para Liderar"

CONTENIDO (Narrative + big takeaway):

"Estamos en un momento crítico. La EU AI Act entra en vigor en 8 meses. Nuestros competidores están activos en gobernanza IA. Y los reguladores (AESIA) están preparando auditorías.

Tenemos dos opciones:

OPCIÓN A: Esperar

└ Resultado: Hallazgos AESIA; sanciones posibles; reputación dañada

OPCIÓN B: Actuar Ahora (nuestra recomendación)

└ Resultado: Liderazgo sectorial; confianza stakeholder;
€1.35M savings + 178% ROI; cero sanciones

La inversión es modesta (€485K = 0.5% budget típico TI).

El retorno es significativo (€1.35M + risk mitigation).

El timeline es realista (12 meses; payback 4.3 meses).

Podemos hacer esto. Juntos."

CALL TO ACTION (Big, 48pt font):

"¿Vota el Board para aprobar este roadmap?"

VISUAL: Comparison table (Option A vs Option B) + momentum arrow

SLIDE 15 (OPCIONAL): Q&A SUPPORT SLIDES

These are backup slides, in case Board asks for more details.

Slide 15A: Detailed Metrics (Metrics Deep-Dive)

TÍTULO: "¿Cómo Medimos Fairness? (Example: Demographic Parity)"

Content:

- └ Formula: $|Approval_GroupA - Approval_GroupB| / Approval_GroupB \times 100\%$
- └ Example: 85% Female approval vs. 90% Male approval
 $|85-90| / 90 \times 100\% = 5.6\%$ gap (acceptable)
- └ Frequency: Monthly automated + quarterly external audit
- └ Tools: Aequitas, Fairness Indicators
- └ Target: <5% parity gap

Analogía para Board: "Like testing pharmaceutical drugs for different demographics: we measure side effects for each population group. AI fairness works the same way."

Visual: Simple infographic (2 demographic groups, approval rates, gap calculation)

Slide 15B: Regulatory Calendar (Timeline Detail)

TÍTULO: "EU AI Act Regulatory Milestones (Why Dec 2026 Target Matters)"

Content:

- Feb 2 2026: Chapters I-II operational (governance requirements live)
- Aug 2 2026: Art. 28-99 operational (high-risk AI must be compliant)
- Aug 2 2026: Art. 50 (transparency/disclosure mandatory)
- Q4 2026: AESIA begins enforcement audits
- 2027+: Fines (€35M max) for non-compliance
- Our Target: Dec 2026 (1-month buffer before enforcement)

Why Buffer? "If we wait until Aug 2, we're at AESIA's mercy.
Dec target gives us 4-month cushion to address any findings."

Visual: Regulatory milestone timeline with our checkpoints marked

III. DESIGN GUIDELINES

Color Scheme (Professional)

Primary (Governance): Dark Blue #003D7A
Secondary (Risk): Red #D32F2F
Success (Progress): Green #388E3C
Neutral (Data): Gray #757575
Highlight (Urgent): Orange #F57C00

Usage:

- RED: Risks, gaps, things that need action
- GREEN: Achievements, positive progress, completed items
- BLUE: Governance, processes, policy
- ORANGE: Warnings, urgent items
- GRAY: Data, metrics, neutral information

Typography

Title Slide: 60pt, bold, primary color
Section Headers: 44pt, bold, primary color
Content (body): 24-28pt, readable from 10+ feet away
Notes: 18pt, can be smaller (for speaker only)
Minimize text: Use visuals instead of bullet points where possible

Layout

Standard 16:9 widescreen (1920×1080 minimum)
Margins: 1 inch all sides
White space: 30-40% of slide (not crowded)
One idea per slide (don't overload)
High contrast: Dark text on light background, or vice versa

IV. SPEAKER NOTES (TIMING & NARRATIVE)

Slide 1 (Portada): 2 minutos

"Good [morning/afternoon]. I'm [Name], [Title].

Today we're presenting our assessment of cybersecurity and AI governance maturity across our organization. This is a high-stakes topic: EU AI Act enforcement begins in 8 months, and we need to act now to ensure compliance and leadership position.

In the next 25 minutes, I'll walk you through:

1. What we measured (methodology)
2. Where we stand today (current maturity: 2.48/5.0)
3. What it costs if we do nothing (€1.8M annual risk)
4. What we can gain if we act (€1.35M savings + 178% ROI)
5. The roadmap to get there (12-month plan)

Let's start."

Slide 2 (Executive Summary): 3 minutos

"Three key findings hit you immediately:

First: We're at 2.48 on a 5-point maturity scale. That's 'incipient'—meaning we have policies and processes, but they're inconsistent and not yet optimized. We're not broken, but we're not leading either.

Second: To get to our target (3.5—'defined'), we need to close a gap of 1.02 points. That's achievable in 12 months with focused effort.

Third—and this is the financial part that should concern you:

If we don't improve, our expected annual loss is €1.8M.

That's the cost of incidents, breaches, regulatory fines, and reputational damage we'll face if things go wrong. But here's the upside: If we invest €485K in remediation, we can reduce that risk to €450K—a savings of €1.35M per year. That's a 178% return on investment in year one alone.

Payback happens in 4.3 months."

Remaining Slides: 1.5-2 min per slide (adjust as needed)

V. EXPORT & DISTRIBUTION

File Format

Primary: PowerPoint (.pptx) - for editability

Backup: PDF (.pdf) - for circulation (read-only)

Before Presenting

- ☐ Print speaker notes (for reference, not reading verbatim)
- ☐ Test all links and embedded charts (dynamic vs. static)
- ☐ Check projector compatibility (16:9 aspect ratio)
- ☐ Have backup copy (USB + cloud)
- ☐ Rehearse timing (should be 20-25 min, not 45 min)
- ☐ Prepare Q&A backup slides (in reserve, not presented unless asked)

Distribution

Post-meeting:

- CONFIDENTIAL watermark on all copies
- Distribute as PDF (not editable)
- Email to Board members only (no wide distribution)
- Archive in compliance records (audit trail)
- Retain copy for future audits (EU AI Act evidence)

Fin de Plantilla Reporte Ejecutivo

Documento profesional para presentación a Board

Enero 2026 / Confidencial / España
